A p o in the Pigeon River Indian Reservation, in the extreme n e corner of the state, first settled in 1855, on Lake Superior, 36 miles n e of Grand Marias, the county seat and banking point, and 130 n e of Two Harbors, the railroad shipping point, on the D & I R R R. Contains a U S Indian school and a Catholic church. Mail, tri-weekly. Joseph L Memashkawash, P M. Gagnon Peter, gen store.

GRAND PRAIRIE. Nobles county. A discontinued p o in the s w part of the county. Send mail to Ellsworth.

GRAND RAPIDS. Pop. 2,055. Itasca county. The county seat, is situated on the Mississippi river and the N div of the G N Ry, 96 miles n w of Duluth, and 210 n of St Paul. It is governed by a council and board of trustees. The principal industry of the town and county has been and still is logging and lumbering, but farming lands are being rapidly settled, and agricultural pursuits will ere long supersede lumbering. Agriculture will, in fact, become the future mainstay of the town, as there are some 200,000 acres of vacant government land in Itasca county, the soil being rich and well adapted for raising all kinds of crops. Mining is also carried on, and before long mining operations will be carried on in near proximity to the village, as test pits are being operated near here, and the tests show encouraging reports. Grand Rapids has 5 church organizations owning their own buildings, Methodist, Presbyterian, Episcopal, Swedish Lutheran and Catholic denominations, several fine public buildings, a high school erected at a cost of \$41,000, the Central school, \$32,000; the county jail, \$25,000; the county court house, \$50,000; also complete systems of electric lighting, and water works owned by the village. Three live and progressive newspapers, the Magnet, Herald-Review, and Independent are published. It also has 2 banks, 3 saw mills, a large paper mill, a hospital, a well equipped volunteer

fire department, and the usual number of general and special stores. The hotel accommodations are far ahead of those of the average country town, and are a fair index of the enterprise of the residents. The leading hotel, the Pokegama, is conducted on first-class metropolitan lines, and would reflect credit on a city of 50,000 inhabitants. This and several smaller establishments offer ample accommodations for the traveling public. The State Experimental Farm is located 2 miles n e of the village. Stage daily, to Boyer. Exp. G N. Tel. HASTINGS. Pop. 3,310. Dakota county. Hastings township. The judicial seat of the county, is located at the junction of the Vermillion and Mississippi rivers, on the River, H & D and H & S divisions of the C M & St P Ry, 20 miles s e of St Paul. It is governed by a mayor and board of aldermen, annually elected in April. Its exceptional transportation facilities make it a shipping and receiving point of great importance to the surrounding country. A State Asylum for the Insane, built in 1899 at a cost of \$75,000, capacity 500 patients, is located here. A new cottage for women, costing \$65,000, with a capacity for 50 patients, has been added, and an equal amount has been appropriated by the Legislature for another cottage for men. The manufacturing and mercantile interests comprise a brewery, bottling works, a malt house, a grain elevator, a saw mill, a

flour mill, a sash and blind factory, a time-recorder factory, boat works, 5 hotels, an opera house and 2 banks. Two newspapers, the Daily and Weekly Gazette and Weekly Democrat are published. Contains 10 churches and has an excellent system of graded public and Catholic schools. The city is lighted by electricity and has fire and police departments. The principal exports are flour, grain, hay, straw and lumber. Telephone service. Exp U S. Tel W U. Mail, daily. Edwin E Tuttle, P M. Ackerman Otto, groceries and crockery. Adsit Alfred M, phys.

INTERNATIONAL FALLS. Pop. 700. Itasca county. A prosperous village on the northern boundary line of the county and state, 100 miles n of Grand Rapids, the county seat. It has no railroad, but is provided, in this respect, by the Canadian Northern Ry at Fort Frances, just across the Rainy river. Its telegraph and express service is supplied by the N. A. Tel Co. and C. N. Exp. Co. both via Fort Frances. The village council comprises L. H. Slocum, pres.; J. H. Drummond, recorder, and Trustees R. S. McDonald, E. E. Peterson and Roger Mercier. It has three newspapers, the Press, the Border Budget and the Echo. Four church denominations are represented, the Episcopalian, Baptist, Catholic and Congregational. Has 2 banks, the First National Bank and the First State Bank, and good schools. An international water power of 40,000 horse power is being developed here by the Minnesota & Ontario Water Power Co. and is to be ready for use early in 1907. Contractors Maguire & Penniman, of Providence, R. I. are in charge of the work. Contracts have been let for the erection of one of the largest pulp and paper mills in America, guaranteed to manufacture 200 tons of paper per day, as the pulp area tributary to International Falls is the greatest in the world. The International Lumber Co. is now completing a saw mill having a capacity of 40,000,000 feet per annum. Both the Minnesota & International and the Duluth, Rainy Lake & Winnipeg railroads are rapidly building toward International Falls, the present terminal of the former being only 30 miles distant and the latter 45 miles. Steamboat lines connect International Falls with points west on Rainy river and the Lake of the Woods; and east on Rainy Lake to Kettle Falls, Tower and Duluth. The principal public business organization is the Commercial Club of International Falls, with R. F. C. Ittis pres. and F. G. Nelson sec. J. C. Chamberlain, P. M. Bacon Benjamin W. plasterer. LAKE CITY. Pop, 2,877. Wabasha county. Dating its settlement from 1850, and incorporated in 1872. A city in the extreme n e corner of the county. Lake township, on the s w shore of Lake Pepin, and on the River div of the C M & St P Ry, 12 miles n w of Wabasha, the county seat, and 58 s e of St Paul. Governed by a mayor and board of aldermen. Annual election in April. The business features comprise flour and planing mills, 2 feed mills, 5 grain elevators, foundry and machine shops, 3 wagon factories, a cold storage plant, 2 lumber yards, 4 hotels, 2 banks and the largest nursery in the Northwest. Two newspapers, the Graphic Sentinel and Lake City Republican, are published. Connection is had with Wisconsin at Stockholm by steam ferry in summer and by livery in winter, and with all trains on the C B & Q Ry. There are Congregational, Methodist, Episcopal, Baptist, Catholic, Swedish and German Lutheran and Adventist churches. Education is well provided for by the Commercial College & English Training School and the Nazareth School for Boys. The city is lighted by electricity, and has a well equipped fire department and fine water works system; the secret societies are well represented. The soil in the vicinity is rich and productive, and the principal shipments are grain, live stock, flour and nursery stock. State camp grounds are located at the southerly limits of the city, upon which the state national guards hold their annual encampments each year in June and July. Telephone service, Exp, U S. LITTLE CHICAGO. Rice county. See Berg.

LITTLE COBB. Blue Earth county. A discontinued country p. o., 23 miles s e of Mankato, the seat of justice, 10 n of Minnesota Lake, on the C M & St P Ry, the railroad station, and 11 e of Mapleton, the banking point. Mail by R F D from Mapleton.

LITTLE FALLS. Pop. 5,856. Morrison county. Incorporated as a village in 1879, and as a city in 1889. Annual election in March. It is the judicial seat of the county, and is situated on the Mississippi river, 108 miles n w of St Paul, at the junction of the L F & D R R with the N P Ry, in the center of a rich agricultural country, north of which lie the largest pineries of the state. A bridge crossing the Mississippi river here has been completed, costing \$45,000. The principal industries

are the manufacture of lumber, flour, paper and brick. Little Falls owes its steady growth to the fact that certain lines of manufactures can be carried on at a profit here, the difference in the cost of power afforded, being a very handsome profit on the business. The Mississippi river at this place flows over a solid foundation of hard, refractory slate rock and granite, which gives to the water power improvements, absolute safety, and makes them as durable as the granite rock itself. The dam, now 20 feet high, is arranged so the water can flow over its entire length of over 800 feet. The water in the water power company's main canal is kept at the desired height by 8 large gates at the head of the canal. The railroads radiate from here in 4 different directions, viz, southeast to Minneapolis and St Paul, with all their vast connections, northeast to Duluth and Superior, at the head of the great system of lake navigation, to the southwest by the Little Falls & Dakota railroad, and to the northwest and Pacific coast by the Northern Pacific, each line of road crossing many other lines. An independent terminal railroad here connects all mills and factories. The city contains a number of good hotels, the "Buckman," being a credit to the city and state; it also has excellent fire protection and a good electric light plant. A handsome county court house, costing \$35,000 is one among the many substantial improvements. The Giant Grip Horse Shoe Co has a large plant here. There are several fine church buildings of different denominations, 3 banks, flour, saw, planing and paper mills, an opera house, iron works, a free pub. library, a creamery, a hospital and a brewery. Three newspapers are published, the Transcript (daily and semi-weekly), the Herald and the Democrat (weekly). Telephone service, Exp. N P. Tel, W U. Mail, daily. W M Fuller, P. M.

ty, of which it is the judicial seat, in Blue Earth Valley, one of the richest agricultural sections in the state. The prosperity and development of the city is largely dependent on its facilities for transportation, and its valuable and inexhaustible natural resources of stone and clays and the various uses to which they are applied. To the exceptional advantages enjoyed by this city in these respects is due, more than any other agency, its prosperity. The C St P M & O Ry, the C M & St P Ry, the C & N W Ry, the C G W Ry, all meet here, and are developing some of the richest agricultural regions of the state, and gather into Mankato an immense and growing traffic. The manufacturing interests of the city are large and rapidly increasing, representing about fifty distinct industries, and include the largest cement works w of Milwaukee, a flour mill, several feed mills, a knitting mill, 2 machine shops and iron foundries, several brick yards, lime kilns, 2 breweries, 3 grain elevators, a creamery, a wood work factory, several wholesale houses, 2 candy factories, 3 furniture factories, a large packing house, 3 book binderies, 1 box factory, malt house, creamery package works and 2 broom factories. It has 3 national, 1 state and 1 savings bank, besides a very thorough representation of all other branches of commerce. There are 19 churches, representing the leading religious denominations, a state normal, 6 public, Catholic and German Lutheran schools, a public library, a Y M C A building costing \$35,000, an opera house, St Joseph's hospital, under the control of the sisters, one of the best equipped in the state, first-class hotels and a board of trade. The city is lighted by gas and electricity, has broad and well-paved streets, both asphalt and brick being used, an excellent system of water works, sewer system, 2 telephone exchanges and all the facilities and appointments of a thoroughly progressive commercial center. It has an excellent fire department, which affords protection against the ravages of fire and which the city is proud of. The press is represented by the Free Press and the Review (daily and weekly), the Post (German semi-weekly), the Journal and the Ledger (weekly) and the Western Farmer and Dairyman (monthly). Mankato can offer to the business man every advantage, to the home seeker a pleasant and healthful location and assure him of a hearty welcome, with every religious, educational and social

## OUR PUBLICATIONS

\* The Mankato Free Press is and has for many years been recognized as the leading paper of Southern Minnesota. The Daily Free Press was established in 1887; 16 pages in politics; eight pages per issue of six columns; issued every evening except Sunday; territory covered Southern Minnesota. Circulation, 7,400.

\* The Western Farmer and Dairyman was established in April, 1905, and while scarcely a year old, it already has a circulation of 50,000 copies. It is published on the first and fifteenth of each month, and circulates in Minnesota, Iowa, Wisconsin and the two Dakotas. It is an ideal farm and home paper, and advertisers reap handsome returns from its columns. Subscription price, 50 cents a year. Advertising rates made known on application.

\* The Daily Free Press is read by about 20,000 people every day and is the people's popular paper. Subscription price, \$3.00 a year.

\* The Weekly Free Press was established in 1887 (when white people were scarce in Minnesota), and has grown up with the country. It has eight pages of seven columns to the page and is read by about 12,000 people. It is published every Friday morning at \$1.00 a year.

Credit Investigations  
Detailed Financial Reports  
Collections  
Adjustments

We report to the retail dealer how his customers, new or old pay their other bills.

We secure the same information for the monthly installment house on persons located anywhere in the United States or Canada.

We investigate Investment companies as to their personnel and financial strength.

We obtain lists of all kinds, at a very reasonable rate, which mail order houses have found greatly to their advantage.

We procure up-to-date market valuations on real estate anywhere in the country; also owners and incumbrances.

We have organized a Collection Department which is rapidly growing, and which our clients have found very good use for.

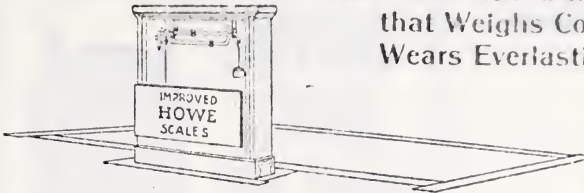

We do a general Mercantile Agency business with which are connected many other features which make this Club one of the most uniquely useful organizations in existence.

We respectfully refer you to any one using our service, as to the quality of it, including any banker or tradesman in the city.

Dear Sir:-

The ever increasing desire to reach the trade by mail makes the IMITATION TYPEWRITTEN LETTER more and more a business necessity,

The nearer a perfect reproduction of a well worded, clean cut letter, appearing to be just from the typewriter the more valuable it is.

Such a letter is entirely out of the class of ordinary advertising; it is a personal appeal, and it not only claims the attention of the recipient, but receives full consideration.

Our Imitation Letters challenge comparison with all others. They are so perfect that no difference between them and the original can be detected. They are wonderful result producers in all lines of business, and they cost no more than the ordinary printed ones.

We solicit a trial order and feel confident that we can satisfy you.

Samples and prices will be sent upon application.

Hoping to hear from you, we remain

Respectfully yours,

# PROFITS!

---

**T**HE interest earned by a life Insurance Company materially affects the profits payable to its policy holders. The best Company to invest in is one so located that it can invest your money in the best of securities and at the highest rates of interest obtainable.

Iowa, Wisconsin and Minnesota farm mortgages pay the highest rates of interest and are the best security obtainable by a Life Insurance Company.

Located in the City of Minneapolis, in the heart of the great Northwest, investing its funds in this class of securities, guaranteeing to its policy holders a return of every cent of profits, absolutely limited in its expenses of management.

# THE TWIN CITY

IS ONE OF THE MOST SUCCESSFUL INDEPENDENT  
TELEPHONE COMPANIES IN THE UNITED STATES

Beginning four years ago with less than 300 paying subscribers it has now (April 1, 1906) over 20,000 subscribers, which are growing at the rate of 4,500 a year.

Two Hundred of the Principal Business Houses  
Have Our Private Switchboards

And the service of the TWIN CITY is used by business men more than any other because it is quicker and less subject to delays. This quick and excellent service is insured to subscribers from the fact that

# A Blessing to Humanity

## CUSHMAN'S TROPICAL FRUIT NECTAR

It is endorsed officially and personally by our State Food Commissioner.

It is made from Tropical Fruits ONLY.

It is a TEMPERANCE drink, not wishy-washy, but has all the body and velvety taste of the rarest wines.

It cannot intoxicate, being non-alcoholic.

It is highly recommended by the Medical Profession.

It is a beverage for the well, food for the sick, a tonic for the convalescent.

It is unequalled for Social Functions and Family Use.

Dear Madam: I exceedingly regret the delay in advising you of the analysis of your Tropical Fruit Nectar. I am, however, pleased to say to you that it is in every way a legal product, composed of healthful fruits, and should be a very desirable drink. I may add in a personal way that I found it so.

Yours very truly,

## Concrete Building Block Machines

**I**N PUTTING a Concrete Building Block and Concrete Machinery on the market we realized at the start, that we must have something superior to anything being offered at the present time. We could build a machine after our own ideas for making the usual kind of building block but we desired to have a building block, and machine for making it with features and advantages not to be found in other blocks being offered for sale. The results of our work we are now putting on the market.

Buildings built of our air-spaced block being a non-conductor keeps the inside at an even temperature, in other words, keeps the inside cool in warm weather, and warm in cool weather.

### A PERFECT AIR SPACE

By this we do not mean a hole in the wall running from bottom to top, but a complete air space in every direction making the wall positively frost and moisture proof.

By moulding a hole in the inner wall it is possible to ventilate the basement or the rooms, through the air space and the roof of the building.

It has been demonstrated that any building where the outer and inner walls are connected with a concrete material that the walls are not moisture and frost proof. Our blocks are tied together with a wood binder perfectly dry and treated with a preparation of our own, which makes it fire and moisture proof.

## Russell Elevating Grader and Ditcher

It is cheaper than the present method because it is more practical. The carrier elevating the dirt is driven by a gasoline engine and does the work of 10 to 12 horses. The RUSSELL is in this way able to do more work with eight horses and two men than it is possible to do with 16 to 24 horses and half a dozen men when the old method is employed. The cost of running the engine is only five or six gallons of gasoline per day, or less than \$1.00, thus the

## COST OF ROAD BUILDING IS REDUCED BY ONE HALF.

The "RUSSELL" works well anywhere, in swampy soil, in brush, and even in stony land, and is especially adapted to ditch work. Send for our printed matter and learn more about the "RUSSELL." Talk it over with your neighbors and bring it up before the people. It will result in the general good of the public. By using a "RUSSELL" it is possible to Build and Maintain Good Roads, and you will save the town more than one half its present cost in building roads.

Write at once for further information. It is to your interest.

### THE KEELEY CURE.

#### ITS BLACKMAILING IMITATORS.

TO THE PUBLIC:—Many thousand confirmed drunkards and drug users are annually restored to sobriety, home, happiness, good citizenship and earning capacity by the genuine Keeley treatment, and many thousand more would be so restored were it not for the heartless blackmailing system of robbery practiced by hundreds of so-called physicians who prey upon the community with worthless and disastrous cures. We have a record of more than twelve hundred of these body destroying, health and home wreckers, scattered over every state in the union, the bad results of whose work is truly appalling, and because most of them have stolen Dr. Keeley's livery under which to pose as "Gold Cures," they are able to impose on the unsuspecting, and by offering a cheap price for a worse than worthless service, add disaster to misfortune by their heartless efforts to obtain money by false pretenses. It is entirely legitimate for any physician to experiment with a cure of his own, and if he can obtain patients upon the honest representation that the remedy is of his own compounding, he deceives no one; but when he falsely pretends that he administers the genuine Keeley Cure, the penitentiary is the proper place for him. It comes to our knowledge that several parties in the State of Minnesota are falsely claiming to sell the Keeley remedies and administer the Keeley treatment. This is notice to all concerned that the GENUINE KEELEY REMEDIES AND TREATMENT cannot be obtained in the State of Minnesota at any other place than THE KEELEY INSTITUTE, corner Park Avenue and Tenth Street, Minneapolis. All others claiming to supply are imposters and frauds, and the public should be governed accordingly.

### WHAT IS VITAL SCIENCE.

Vital Science is the latest and grandest of all sciences. It is the science of **life and health and happiness.**

It comprehends a thorough knowledge of man and the laws by which he is governed in each department of his nature—physical, mental and spiritual.

Vital treatment involves the use of no drugs, no knife—no feature that injures or impairs the human organism, no principle that does not breathe of nature's law.

**T**HE above is a photo engraving of our 1905 State Fair Exhibit. It was conceded by all who saw it to be the finest display of its kind they ever saw. Whatever we do we endeavor to excel in. Our exhibit shows we succeeded. We try to excel in **paying best prices for all goods we buy**; we try to excel in **promptness in making returns**; we try to excel in selling such goods as we deal in, that is at the lowest possible prices and in promptness in filling orders. That we generally succeed in all we do is proven by our immense growth of trade, unparalleled by any other firm in this country. Prove us by **doing business with us**. # The Reed School

## FOR NERVOUS AND BACKWARD CHILDREN

### AND FOR THE CORRECTION OF DEFECTIVE SPEECH.

The School makes a favorable impression on both Physician and Parent,

Because:—

The "family physician" notes the skillful, careful use of the latest means of bringing about the greatest possible mental and physical development of children who require far more individual care and discriminating guidance than can possibly be given in the ordinary public or private school.

The "family physician" notes that the Reed School has secured the unreserved approval of all the leading specialists in the care of children in health and disease who are personally familiar with its facilities, its methods and the results which it attains.

The "family physician" notes that this school is not for the exploitation of any "fad" in child training, but is open to the acceptance of the latest developments in its line of work which have received scientific approval.

Because:—

The parent notes the truly "homelike" atmosphere which is present, as indicated by the entire absence of anything "institutional."

The parent notes the evident pleasure which the Reed School pupils take in their work.

The parent notes the many unmistakable tokens of the exercise of the tenderest care in the proper development, mentally and physically, of every pupil.

The parent notes the school's proud record, showing the arousing of dormant faculties, the correction of misdirected energies, and in not a few cases the fitting of children to attend regular schools who had formerly been rejected by such schools, on the ground that it was impossible for such children to be taught.

A leading feature of the work is the cure of stammering and other forms of defective speech. This work is by no means confined to the nervous and backward, as the Reed method for the cure of stammering is favorably known throughout the country and attracts pupils of all ages, including professional and business men. The premises utilized and the teachers employed are entirely separate from those connected with the school for nervous and backward children.

MINNESOTA STATE GAZETTEER.

Minneapolis

813

MINNEAPOLIS. Pop. 261,974. In Hennepin county, on the Mississippi river, 12 miles above St Paul. Minneapolis and St Paul are together widely and generally known as the Twin Cities, and although two separate municipalities, still they have become famous as one business center, with everything in common except political boundaries. With an aggregate population of 500,000, this community now ranks as seventh in size and importance among the trade centers of the United States, New York, Chicago, Philadelphia, Boston, Baltimore and St Louis being the only cities on the North American continent that exceed the Twin Cities in trade, population and wealth.

Within this favored and prosperous area are many of the largest and best institutions in the nation, and many highly interesting sights for tourists. The altitude is about 500 ft. The clear lakes and bright blue sky are the first evidence of a pure, healthful atmosphere and an invigorating climate that is destined to create the greatest and most vigorous race of men the world has ever known. The Twin Cities are on the highway between the Atlantic and Pacific oceans, being 1,300 miles from the eastern seaboard and 2,000 miles from the western coast, and must of necessity soon take third place among the great trade centers of this progressive nation.

It was in 1538, when the Indian title to this locality was extinguished, that the first settlement was made at the Falls of St Anthony. The attraction was the immense water power afforded by the falls, and the abundance and excellence of the pine in the forests of the country along the Upper Mississippi and its confluent. That is now said to have been the origin of Minneapolis, but it was in truth the beginning of St Anthony, for the original Minneapolis was confined to the west side of the river, and its settlement did not begin until 1850.

Two years later the little village of Avon was platted, the name being subsequently changed to Minneapolis. Such was the beginning of what has in the short space of 54 years grown to be one of the great cities of the country, attaining a population of more than 261,974.

But it is not of her population, that Minneapolis has most occasion to be proud. Her boast should be of the conditions which made it possible for her to gain this multitude in the brief space of time since the city was founded; the especial facility which developed the struggling frontier settlement to a mighty metropolis is the power furnished by St Anthony Falls, which is equivalent to 35,000 horse power. This alone would have been sufficient to draw population and capital. Added to this, however, was the heavily timbered pine region near the upper river, and convenient to float the logs down to the mills. Still another attraction was the nearness to one of the greatest wheat-growing regions in the world, where the hard variety of five wheat was a certain crop. This could

also be brought to Minneapolis mills with facility, and ground into the best quality of flour.

These gave Minneapolis its start, and, having once become famous for its lumber and flour, and being withal situated in the midst of a country eminently suitable for general agriculture, and with various materials for manufacturing within easy reach, it is not strange that it grew speedily into prominence. Today the city not only enjoys all the advantages which made it what it has become, but it has added to these and is still adding to them.

As a Jobbing Center Minneapolis has been developing rapidly. The principal lines dealt in are agricultural implements, flour, lumber, sash and doors, wheat, furniture, men's furnishing goods, fruit, garden seeds, rubber goods, structural iron, furs, shoes, confectionery, groceries and dry goods, but almost every known article is manufactured here on a large scale, for Minneapolis is pre-eminently a manufacturing city. No estimate of the aggregate jobbing business for the year 1905 has yet been made, but it is generally believed to have exceeded any previous year.

The Largest Flour Mills in the world are located in Minneapolis, and they produce a daily average of 70,000 barrels of flour, of the finest grade, that is shipped to every quarter of the civilized world, and the quality and quantity of this flour have made Minneapolis famous. Minneapolis is also the

Greatest Lumber Market in the world, producing more than 500,000,000 feet annually. The total product of the Minneapolis factories for 1905 far exceeds that of any preceding year. The city is well provided with

Banking Facilities there being 6 national, 8 state banks, 3 savings banks and one private bank, with a total capital of \$6,285,000. The total bank clearings for 1905 amounted to \$913,579,558. The

Assessed Valuation of real and personal property in the city is \$138,690,543, and the average tax rate is 29 1/2 mills. The net indebtedness of the city, that is, the total bonds outstanding is \$10,080,834.87.

In the way of public improvements Minneapolis is one of the most progressive cities in the country. The municipality annually spends between \$750,000 and \$1,000,000 in public improvements of a permanent character. There are

Twenty-seven Railroads radiating from the city, reaching all parts of the Union. Four of the roads are transcontinental lines, affording

## BIRMINGHAM PROCESS CIRCULAR-LETTER COMPANY MINNEAPOLIS

Business Men,

Generally,

Gentlemen -

If you could employ enough messengers to call on everyone you wish to reach, you could have little use for advertising.

Advertising by personal letters, if they are of the **PROPER** kind, is the most best method for directly reaching the people. But you should be **PROBABLY** represented thru the mails, as well as thru the individual, in order that your efforts obtain the **PROPER** value.

It doesn't pay to discount the intelligence of a prospective customer by sending him an "imitation" when you can get **OUR WORK**, a reproduction of **ACTUAL LIFE LETTERS**, positively not distinguishable from the original and the "filled in" names etc., at the top, are on **4330-1000** cards demonstrating far greater percentage of results over the various amateur methods called "styles", "grazes" etc., on the market.

Yours for the **PROPER** SORT.

**MOORHEAD.** Pop. 4,794. Clay county. Incorporated as a city in 1881. Governed by a mayor and board of aldermen. Election in February, 1903, and every two years. This enterprising city is located at the junction of the M div of the N P Ry, with the N div of the G N Ry, on the e bank of the Red River of the North, which is not navigable at this point. Two substantial wagon bridges span the river here, connecting the city with Fargo, N D. It is the judicial seat of the county, and is an important distributing center for Northwestern Minnesota and Eastern North Dakota. It possesses facilities for shipping that are unsurpassed. The city contains 7 churches, Concordia (a Norwegian college), a state normal and 4 public school buildings, 3 banks, foundry and machine shop, 2 flouring mills, 2 grain elevators, the G N Ry roundhouse, several good hotels, 3 brick yards, 1 daily, the News, and 3 weekly newspapers, the Citizen, the News, and the Independent, and a full representation of the various professions and callings. The city has built and fully equipped a complete system of electric lighting, the Westinghouse system, and in connection with the electric plant has built a water supply system, the two plants costing \$45,000; also a good sewer system costing about \$15,000; it also has a system of street railway running to all parts of the city and to Fargo, N D. The export trade in wheat is very extensive. Moorhead is practically out of debt, its indebtedness being only \$40,000 which is not due until 1916, and the funds are provided to take this up when it becomes due. The city taxes can never be more than 5 mills on the dollar, and this year there will not be any city taxes levied. The principal streets are going to be paved in 1906. A library has just been built costing \$12,500. Free letter carrier service was inaugurated by the government in the spring of 1905, with 2 carriers, and by reason of the increase in business the third letter carrier has been added. Splendid farming
